

Organization:

RAI is the world leader in providing services to plant breeders (flowers, potplants, annuals, perennials, shrubs, fruits, berries, etc.) for Plant Patent and Plant Breeders Rights applications, licensing of growers for propagation of protected varieties, monitoring of licensees, royalty collections and disbursement of moneys. We have offices in Holland (Head Office), South America, Japan and North America. For our location in the United States we are looking for a:

Field Representative

Duties and Qualifications:

Position operates out of individual's home. Will travel in assigned territory visiting greenhouses to monitor that growers are following propagation and non-propagation policies of breeder/plant suppliers. Extensive travel during January through June period. Limited travel the balance of year. Any agreement with RAI can also include representation worldwide.

Minimum two years of horticulture experience and/or an associate's degree in horticulture required.

We will offer you a salary what is based upon experience, paid holidays; vacation and sick days are included.

Application:
